## COMMENTS

Strong points/Overall Performance
<p><b>Participant No3 was excellent through all the sections. Even though she prepared very much ,her project was simple and very logical. So I decided to vote to her without doubt.</b></p>

Weak Points/Suggestions for Future Study
<p><b>Participant No1 was not prepared very much, I think. But her vocabulary was not so bad. So if she had been prepared more and she could have been confident with it, her result would have been different from it.</b></p>
